DETAILED ACTION

Continued Examination Under 37 CFR 1.114

* A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 8/5/05 has been entered.

- . This office action is in response to Applicants' amendment of 11/18/05.
- . **Claims 1, 6, 16, 21, 25, 29** are amended. **Claims 1-23 and 25-34** remain pending.
- . The objections to the oath and prior art claim rejections of record are withdrawn in response to Applicants' amendment.
- . The prior art claim rejections to **Claims 1-10, 16-23, 25-28** of record are withdrawn in response to Applicants' amendment.

Response to Arguments

* Applicants' arguments have been fully considered:

They are deemed persuasive in regards to amended **Claims 1-10, 16-23, 25-28**, and as a result, **Claims 1-10, 16-23, 25-28** are allowed.

However, Applicants' arguments in regards to the remaining **Claims 11-15, 29-34** are not deemed persuasive because the prior art of record does not limit/restrict signal timing requirements exclusively to audio/video/auxiliary/control signals of equal duration as alleged. Since these signals (audio/video/auxiliary/control signals) have different timing components/wave characteristics, such components must de facto be observed/identified/managed accordingly via non-equal timing means.

Art Unit: 2133

- Applicants' arguments at page 13 para. 1 in the 2nd sentence (beginning of the data signal) seem to lack consistency in view of the claim language.
- Applicants' recitation at page 14 para. 2 in the last sentence (blanking period) is not incorporated into the claim language. 'Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).'

Conclusion

Any response to this action should be mailed to:
